ANNA HISTORY:

Anna is located on State Highway 5, Farm Road 455, and U.S. Highway 75 eleven miles northeast of McKinney in north central Collin County. Although Collin McKinney settled within a few miles of the future townsite in 1846, John L. Greer, who arrived in 1867, is credited with building the first home and store in the new community. The Houston and Texas Central Railway, at that time built between Dallas and Denison, passed through the area in 1873. By the time Anna was platted in 1883, it had a population of twenty, two stores, a steam gristmill, and a Baptist church. A post office also opened in that year. By 1890 the town had a population of 100 to 200. Anna was incorporated in 1913, with John L. Greer as first mayor.

Local historian Chester A. Howell compiled a brief history of Anna for inclusion in a book that was given to those who attended the Anna school homecoming on October 19, 1985. A one page "errata" to correct some minor errors was added in 1989. Mr. Howell's history, [*A Town Named Anna*](#), is one of the most authoritative and complete descriptions of the history of our community.

PARKS & RECREATION:

Slayter Creek Park is located west of Anna Middle School on Rosamond Parkway and includes a variety of recreational amenities including: four ball fields (two lighted), four tennis courts, two basketball goals, a large multi-purpose athletic field, a 3600 foot walking trail, a skateboard park, a playground, horseshoe pits, a shuffleboard court, a large pavilion, and a concession building with restrooms.

Natural Springs Park is just south of West White Street (FM 455), behind Brookshire's and Rattan Elementary school. The site includes a natural spring that feeds a small man-made pond. The area around the spring and pond is heavily wooded. A large open area is located along the west side of the tract, providing lots of room for flying kites, playing with Frisbees, and other passive recreational activities. While the majority of the park will remain in its natural state, amenities include walking trails (with three bridges), picnic tables, benches, a fishing pier at the pond, and a gazebo.

Bryant Park is a 5 acre tract located on the north side of CR 371 just south of Bryant Elementary. The area is available for outdoor athletic and recreational activities.

Geer Park is a 25 acre tract located just east of the intersection of 6th and Smith Streets. While a final concept plan for the park has not been finalized, the city has graded the property and planted turf grass on just over 3 acres. Like Bryant Park, this area is available for outdoor athletic and recreational activities.

Sherley Park is located at the corner of Sherley Ave. and 4th street. The park features a baseball field where the boys' youth league traditionally plays.

Johnson Park is located just east of Sherley Park on Sherley Ave. at 1st street. The park features 2 softball fields where the girls' youth league traditionally plays and a playground.

The city owns other areas of land throughout the city that are designated as park land and will be developed as the city grows.
